

Vinayak Prajapati — Web Presence

Two single-file, self-contained websites for **Vinayak Prajapati**, final-year Computer Science Engineering student (Sandip University, Nashik, CGPA 8.00) seeking entry-level roles in **Data Analytics / Data Engineering**.

Live Versions

- Portfolio: <https://claude.ai/artifact/9oKZo45aNy9WS4s9EVXhYk>
- Links page: <https://claude.ai/artifact/GJTdePSyiGjqQRyn8Cg2a6>

Files

- `portfolio.html` — the full portfolio website (HTML, CSS, and JavaScript in one file, with all images, the résumé, and certificates embedded as base64 so no external files are needed).
- `links.html` — a "link-in-bio" style landing page (Linktree-style) with an animated crystal background, theme toggle, and quick links to everything.

portfolio.html

Sections

1. **Hero** — name, photo, animated role marquee (Data Analyst / Data Engineer / Computer Science Student), résumé download, contact CTA
2. **About Me** — short professional summary
3. **Education** — SSC (CBSE), HSC (Maharashtra State Board), B.Tech (Sandip University)
4. **Skills** — three cards: Data Analytics, Data Engineering (incl. concepts currently being learned), and Tools, plus a Soft Skills card
5. **Projects** — Abnormal Behaviour Detection for Road Safety, To-Do List Application
6. **Experience** — AI Data Analytics Internship at InAmigos Foundation, with buttons to view the internship certificate and offer letter
7. **Certifications** — 6 certifications, each with a "View certificate" button that opens the real certificate image/PDF in a popup
8. **Get in Touch** — contact cards (Email, WhatsApp, LinkedIn) plus a message form that opens the visitor's email client with the message pre-filled
9. **Footer** — quick links and social links (Email, WhatsApp, LinkedIn, GitHub, Instagram, Facebook)

Features

- Dark/light theme toggle (persists via `localStorage`)

- Scroll-triggered fade-up animations on cards, certifications, and skill tags
- Fully responsive layout
- All documents (résumé, certificates, offer letter) embedded directly in the HTML

links.html

🌟 Features

- Profile card with real photo, name, role, and short bio
- Scrolling "crystal ticker" highlighting Data Analyst / Data Engineer / Computer Science Student
- Animated floating crystal background
- Dark/light theme toggle
- Buttons: Hire Me, Portfolio, LinkedIn, GitHub, X (Twitter), Instagram, Facebook, Email Me, Resume (real download), My Projects, Certifications (expandable sections)

🔧 Tech

Plain HTML, CSS, and vanilla JavaScript — no frameworks, no build step. Fonts from Google Fonts; icons in `links.html` from Font Awesome (via cdnjs).

🚀 How to Use

- **View locally:** open either `links.html` file directly in a browser.
- **Host anywhere:** upload to any static host (GitHub Pages, Netlify, Vercel, etc.) — both work as-is with no configuration or build step.
- **Edit content:** search the file for the relevant text and update directly, or ask Claude to make further edits.
